**DETAILED ACTION**

***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 02/28/2006 was considered by the examiner.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 2-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 recites the limitation "wherein the appliance coupling part is arranged in an inlet nozzle of the dispensing appliance." Since the appliance coupling part is an inlet nozzle, it is not clear how it can be in the inlet nozzle.

Claim 4 recites the limitation "the opening push rod". There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the opening push rod". There is insufficient antecedent basis for this limitation in the claim.

Claim 7 recites the limitation "the opening push rod". There is insufficient antecedent basis for this limitation in the claim.

Claim 8 recites the limitation "wherein it comprises two coupling arrangements." It is not clear what "it" is.

Claim 9 recites the limitation "the quick clamps". There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Keller (US Patent 6,260,577 B1).

7. In Re claim 1 Keller discloses a device for filling storage containers (9) on dispensing appliances (25) comprising a filling station (1) which includes a coupling arrangement having an appliance coupling part (27A) and a station coupling part (6A).

***Allowable Subject Matter***

8. Claims 2-9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
